TULANE UNIVERSITY SCHOOL OF MEDICINE

CLASS OF 2009: THE KATRINA CLASS

T-WAVE

VOLUME XXVIII

NEW ORLEANS, LOUISIANA

Dear Classmates,

Before you enjoy the photos and memories contained in the following pages, we would like you to take a few moments to reflect on all that you have accomplished within these past 4 years. You have worked hard, learned more than you probably could have imagined, and, as evidenced by the hundreds of pictures you submitted, had a great time along the way. We applaud you.

If you let your mind wander back to our white coat ceremony, you may recall the keynote address that encouraged us to achieve our dreams by "standing on the shoulders of giants." Little did we realize how soon this message would come into play. Just weeks later, Hurricane Katrina uprooted our lives and threatened our dreams of becoming doctors. Yet, through a Tulane alumnus and true "giant" of medicine, Dr. Michael E. DeBakey, we were able to continue our education, our dreams, in Houston. Through the hard work and tenacity of our administration and faculty, we were able to see what self-sacrifice can accomplish. And through all of us—our diversity, our compassion, our fortitude—we were able to continue and build upon the unique spirit of Tulane.

Indeed, although our medical school memories will always be influenced by the devastation of Hurricane Katrina, the "Katrina Class" label is one we have worn with honor. Our school was flooded with six feet of water, our hospitals severely damaged, our population depleted, yet we stood by to play a role in Tulane's, and New Orleans', resurrection. With collective resilience in the face of this upheaval, we channeled our energies towards the citizens of our city who were in desperate need of healing, and we should feel fortunate that even our nascent medical knowledge had a meaningful impact. On many levels, we have faced challenges head-on, looking to them as opportunities for change, approaching them with great patience and pragmatism. Our class has already endured much more than most graduating medical students and we should take pride in the fact that we are bound by an experience greater than our common medical education.

Another "giant" of medicine, Sir William Osler, once wrote of student life: "The hardest conviction to get into the mind of a beginner is that the education upon which he is engaged is not a college course, not a medical course, but a life course, for which the work of a few years under teachers is but a preparation." As we excitedly advance on to the challenges of finally being a "doctor," we are indeed still in the preparation stages of a greater life course. However, have faith in the fact that we have benefited from some of the most unique and invaluable of life lessons. We will be better doctors because of it.

Thank you, Class of 2009, for an amazing 4 years. It has been a true honor and privilege to compile this yearbook, and we have aimed to capture all the passion and joie de vivre that each of you embodies.

Congratulations! We wish you nothing but the best in achieving your dreams in all stages of your medical career.

2009 T-Wave Editors
Chris Kroner, Pamela Jones,
Nicole Lee, and Rachel Waxman

Dear Class of 2009,

It gives us great pleasure to welcome you into the medical profession. You began your medical school studies with us in August of 2005, and on August 29, we all became participants and witnesses to one of this country's greatest natural disasters. Shortly after Katrina we made a commitment to you: we would make sure you graduated on time from Tulane. In spite of what seemed like insurmountable obstacles, you persevered, stuck with us, and came back to New Orleans to help rebuild our city. For that, we are forever grateful. We are sure that you, like us, learned what is truly important from this experience. We certainly learned what it means to be patient, but more importantly, we learned what it means to be part of something much larger than ourselves.

We are both very proud of what your class has achieved. Among your many accomplishments include establishing free clinics in New Orleans, working to help rehabilitate substance abusers and working with local school children to improve their scholastic performance. Many of you have helped build homes and repair broken lives. Medicine is a service profession, and you certainly have shown your dedication to serving others.

The promise that you all began with in 2005 was realized during the 2009 match, when you were rewarded for your efforts with the opportunity to train in so many outstanding programs and disciplines. Some of your best and brightest have chosen to stay with us at Tulane. Others have chosen to go on to some of the best and most prestigious programs in the country. All of you will carry that Tulane spirit and the Katrina experience to make you excellent physicians as scores of Tulane students have done before you.

All of our paths will cross again, whether professionally or because we know what it means to miss New Orleans…so we expect to be able to say "I knew that student when…."

Class of 2009, go out, practice your art, show your compassion, and make a difference! We wish you success and don't forget us!

With our most sincere wishes for your successful futures,

Marc J. Kahn, MD

N. Kevin Krane, MD

Hippocratic Oath

I swear by Apollo the physician, and Asclepius, and Hygieia and Panacea and all the gods and goddesses as my witnesses, that, according to my ability and judgement, I will keep this Oath and this contract:

To hold him who taught me this art equally dear to me as my parents, to be a partner in life with him, and to fulfill his needs when required; to look upon his offspring as equals to my own siblings, and to teach them this art, if they shall wish to learn it, without fee or contract; and that by the set rules, lectures, and every other mode of instruction, I will impart a knowledge of the art to my own sons, and those of my teachers, and to students bound by this contract and having sworn this Oath to the law of medicine, but to no others.

I will use those dietary regimens which will benefit my patients according to my greatest ability and judgement, and I will do no harm or injustice to them.

I will not give a lethal drug to anyone if I am asked, nor will I advise such a plan; and similarly I will not give a woman a pessary to cause an abortion.

In purity and according to divine law will I carry out my life and my art.

I will not use the knife, even upon those suffering from stones, but I will leave this to those who are trained in this craft.

Into whatever homes I go, I will enter them for the benefit of the sick, avoiding any voluntary act of impropriety or corruption, including the seduction of women or men, whether they are free men or slaves.

Whatever I see or hear in the lives of my patients, whether in connection with my professional practice or not, which ought not to be spoken of outside, I will keep secret, as considering all such things to be private.

So long as I maintain this Oath faithfully and without corruption, may it be granted to me to partake of life fully and the practice of my art, gaining the respect of all men for all time. However, should I transgress this Oath and violate it, may the opposite be my fate.

In Memoriam

Dr. Michael E. DeBakey

September 7, 1908 – July 12, 2008

Dr. Michael DeBakey Receives Congressional Gold Medal on April 23, 2008. Bronze duplicates of the medal are available to the public on the same date. (United States Mint images)

Dr. DeBakey was one of the most revered physicians of our time and has been called "the greatest surgeon of the 20th century." After being in Houston for half a century, he immediately came to the aid of his alma mater following Hurricane Katrina. Dr. DeBakey, at age 97, personally arrived to support and welcome us on our first day at Baylor. The DeBakey Foundation also donated funds to Baylor to cover expenses incurred by hosting Tulane following the storm.

Thank you, Dr. DeBakey, for a lifetime of service and invention and for being a role model for generations of medical students.

- Tulane SOM Class of 1932
- Tulane Surgery Faculty 1937-1948
- Pioneered Aortic Aneurism and Dissection Repair 1952-1955
- First Carotid Endarterectomy 1953
- Invented or contributed to Left Ventricular Assist Device, Heart Bypass Equipment, Synthetic Vascular Grafts, Military MASH units, and many other tools and procedures common in modern surgery.
- Supervised First Multi-Organ Transplant 1968
- Founded the *Journal of Vascular Surgery*
- Helped Establish National Library of Medicine
- Presidential Medal of Freedom with Distinction 1969
- National Medal of Science 1987
- Congressional Gold Medal 2008

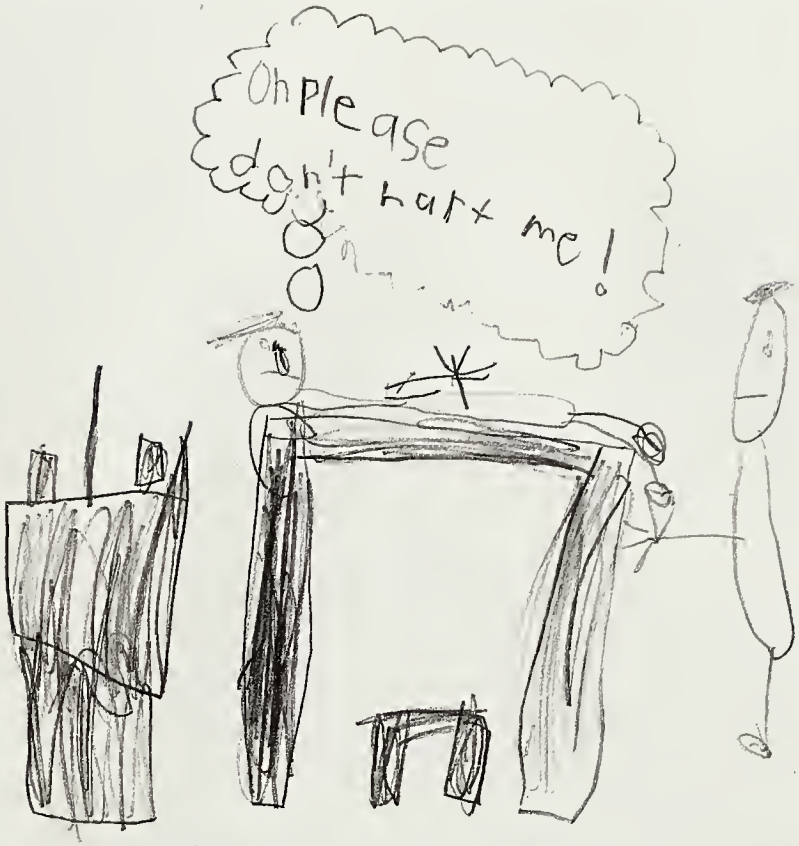
Congratulations and loads of love,
Rachel (The Boo)

KELLI,

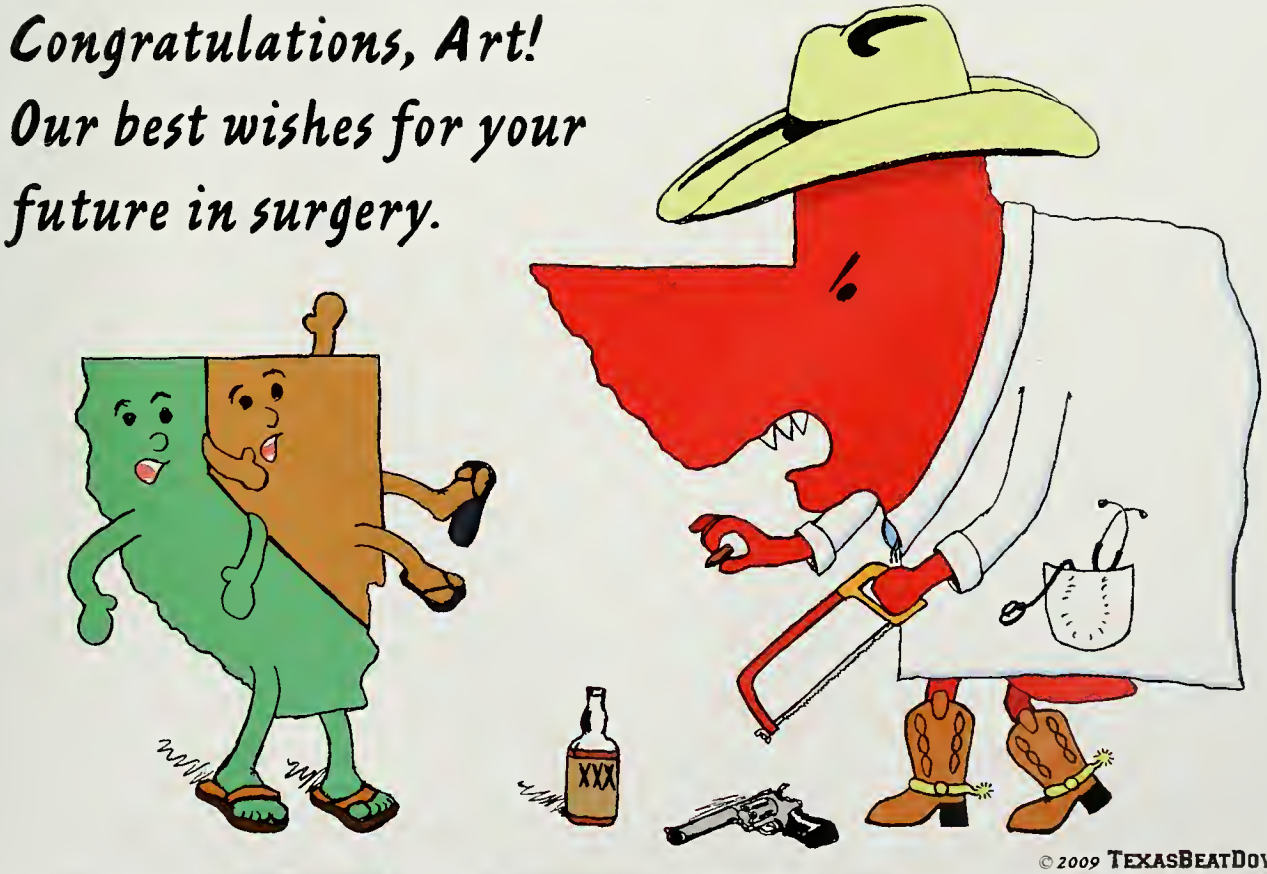
YOU ARE A VERY SPECIAL LADY. YOU ARE AN INSPIRATION TO ALL OF US AND YOU HAVE WORKED SO HARD TO GET WHERE YOU ARE TODAY. YOU ARE HIGH-SPIRITED, FULL OF ENERGY, AND PASSIONATE ABOUT EVERYTHING YOU DO IN LIFE. YOU ALWAYS CHALLENGE YOURSELF TO EXPAND YOUR HORIZONS. THEY CALLED YOU "KAMIKAZE KELLI" IN HIGH SCHOOL BECAUSE YOU KEEP GOING AND GOING LIKE THE ENERGIZER BUNNY. YOU ARE GOING TO BE AN AWESOME DOCTOR; YOUR SMILE ALONE MAKES EVERYONE FEEL BETTER. WE ARE ALL SO VERY PROUD OF YOU AND ALL OF YOUR ACCOMPLISHMENTS.

CONGRATULATIONS!
WE ALL LOVE YOU VERY MUCH!
MOM, CHAD, MEM, PEP, AMAH, KAREN, MEL, DAVE, AND DICK



Arthur—
Be a good
doctor.

Love,
Thomas



Dear New Orleans,

We watched you change forever and you have forever changed us.
You've made us smile. You have brought us friends.
You've scared us. You've surprised us. You have let us grow.
You've taught us. You have made us better.
We will never forget you.

Laizzez Les Bon Temps Rouler

Every choice matters.
Every decision critical.
Every move confident.

MORE CONTROL. LESS RISK.

LEADING THE QUEST FOR HEALTH.

More than 100 years ago, Cedars-Sinai was a small hospital whose goal was to provide the finest quality care to the Los Angeles community.

Today our reputation for excellence extends around the globe. Our commitment to medical research and innovation, combined with our passion for patient care, has made us one of the most dynamic and highly renown medical centers in the world.

Medical education has been a core mission of Cedars-Sinai since its inception. Our residency and fellowship programs enable physicians to develop their clinical expertise as well as participate in a wide range of research activities.

At Cedars-Sinai, there are more than 600 research projects underway, and we're making new discoveries and putting them into practice every day.

Our goal is to stay at the forefront of medical advancement. Only in this way can we maintain the gold standard of excellence in healthcare for another century to come.

Congratulations Graduates!

Kindred Hospital New Orleans is a long-term acute care hospital, offering a full range of services for patients whose medically complex conditions require the specialized care and prolonged recovery time conventional short-term acute care hospitals are not equipped to provide. We are proud citizens of New Orleans and we congratulate this year's graduates of Tulane University School of Medicine.

75 YEARS OF PARTNERSHIP

Blue Cross and Blue Shield of Louisiana has served the families of this state since 1934. What started as a one-room office in New Orleans now makes a $3.5 billion impact on our local economy.

Louisiana doctors and hospitals put their trust in Blue Cross and Blue Shield of Louisiana. For four straight years we were voted No. 1 in Provider Satisfaction by the nationwide Blue Cross network. We're proud of our outstanding relationships with the providers that keep our networks strong.

More than 1.1 million members also count on us. For the 2nd year in a row, our company has received a Brand Excellence Award for Member Retention, recognizing the service and value we provide to our customers.

A lot has changed since 1934, but our commitment to Louisiana has never wavered. We've been here through good times and bad . . . from birth to retirement . . . in sickness and in health.

Today. Tomorrow. Always.

75 YOUR HEALTH OUR COMMITMENT

IASIS
HEALTHCARE. Where you could be.

Pick your next sunset.

IASIS Hospitals offer the finest aspects of medical practice in appealing locations. Our facilities continue to keep pace with the growing needs of our surrounding communities in Arizona, Louisiana, and Texas. Join us in an environment where your skills will truly make a difference. Employment and Private Practice arrangements available.

Glenwood Regional Medical Center's proud tradition of providing high-quality healthcare started more than forty years ago. Over the years, the hospital has grown in size, adding new services and modern technology, but you'll still find the same family-oriented, friendly service that's been the cornerstone of this community hospital since the day it opened. Glenwood is nationally recognized for quality, especially in the area of cardiology, and consistently scores high in patient satisfaction.

This 244-bed hospital offers PAC System, ICU unit, 6-bed CV/ICU unit and CV Telemetry unit and is the only full-service hospital in West Monroe, LA. The facility draws from a 12-parish service area, and receives great support from the hospital Board and Administration, the community, and corporate support from IASIS Healthcare. West Monroe is one of the twin cities of northeast Louisiana, and the area offers a wide array of housing options, schools, and churches.

Roche

We Innovate Healthcare

From Research to Real Life

We all dream of doing big things. Solving important problems. Making a difference. Improving lives. Transforming these dreams into reality requires ambition, creativity, and a company like ours to help put all the elements together.

Roche is a leader in preventing, diagnosing and treating disease, enhancing the quality of life for everyone. We invest almost $5 billion a year in innovative research, and our capabilities combine traditional biomedical science with the latest advances in biotechnology, genetics and genomics. Our investment in research has led to the introductions of important new medicines for osteoporosis and flu. And our current pipeline includes potential advances for treating cancer, diabetes, arthritis and hepatitis C.

Few companies possess the global strength in both diagnostics and therapeutics that Roche enjoys. By forging closer links between diagnosis and treatment, we're leading the way to a new dimension in healthcare—individualized medicine. This approach identifies the best treatment for a specific individual.

And since we understand that every individual is unique, we strive to ensure a diverse workplace. Roche encourages creativity and embraces differences in talent, education, work style, lifestyle and culture.

Arthritis, cancer, diabetes, hepatitis, HIV/AIDS, influenza, nervous system disorders and osteoporosis – just some of the real life issues Roche is focusing on and providing solutions for.

Visit our global Web site at www.roche.com or our U.S. Web site at www.rocheusa.com.

South Louisiana Medical Associates Congratulates The Graduating Class of Tulane University School of Medicine

Come visit Houma, Louisiana

and discover the many assets which make this a special place to live and work. We have abundant natural resources, from our scenic bayous to our prolific seafood and offshore mineral resources. Houma enjoys a very low unemployment rate due to the strength of natural gas, oil, agriculture, restaurant, retail and fabrication industries. The quality of healthcare services available in Terrebonne Parish is among the best in the country. We have approximately 80,000 residents, with 110,000 total residents including surrounding communities... and we're growing. We're in close proximity to everything: only 57 miles southwest of New Orleans and 20 miles to Nicholls State University! Our Cajun Culture is one of our national treasures (along with our food) and our fishing and sporting opportunities are legendary.

Houma is just a melting pot of friendly, caring people with much to offer. Come and discover for yourself why this is such a special and unique corner of the world. We invite you to stay for a while...even for a lifetime.
